Date **September 18th ,2025**
Subject **Commitment to Environmental Sustainability**

At Regent Chemicals Products we are dedicated to sustainability and recognize the importance of taking proactive measures to protect the environment.

Our current scope 2 is zero as we are committed to renewable energy sources. For scope 1 we commit to moving our forklift trucks over to electric (renewable energy) when they will be due for replacement to reduce our scope 1.

We then commit to maintaining or improving this minimal scope 1,2 profile.

Sincerely,

A handwritten signature in blue ink, appearing to read 'RB', located below the 'Sincerely,' text.

Richard Besner, ing.
